## INTRODUCTION

Pablo once quoted "everyone has a price, the important thing is to find out what it is". Combining the most notorious figure of all time with the largest meme right now Pepe Escobar was born.

Pepe Escobar is the most notorious meme project on the Binance Smart chain, which aims to establish the price investors are willing to ape to achieve the riches of Pablo and Pepe early investors.

Paired with achieving great riches, Pepe Escobar gives all cartel members access to the Medellín protocol. Through taxation on sell only our loyal cartel members will benefit from reflections in \$ELPEPE distributed automatically into their wallets. Pepe Escobar treats his cartel members like family however, he expects the same treatment back and does not take kindly to jeets.

### WHY \$ELPEPE REFLECTIONS?

Mr Escobar always ensure his cartel members are rewarded for their loyalty to Medellín. By offering reflections in \$ELPEPE holders will benefit from substantial gains, when the Medellín cartel becomes takes over the cryptosphere and asserts its dominance as the true pioneer of the space.
